

Bridgeport 3A Project (Cirque Drive to 54th Street)

Updated Tuesday, October 13, 2009

Work Continues on the construction of Bridgeport 3A along Bridgeport Way from Cirque Drive to 54th Street.

Construction began August 3rd and is 80% complete.
Paving work is pending a break in the rainy weather.

Traffic Update:

Due to rain, paving has been rescheduled from the original October 13th and 14th date to Monday, October 19th for the north bound lane and Tuesday, October 20th for the south bound lane.

The lanes will narrow to one lane, but widen back to two lanes well before the intersection of Cirque and Bridgeport leaving the intersection unaffected by the lane closure.

Please feel free to contact me at 253.460.5411, should you like more information on the project.

Jack Ecklund, P.E.
City Engineer
