

PLEASE CONSIDER BECOMING A PATRON OF BEAUTIFICATION...

Maybe you have seen some of the projects in University Place funded by Beautification dollars. It is quite possible that you may have seen the daffodils blooming or sat on a park bench and not even known it was funded through the Patrons of Beautification Project. Did you know that last year alone almost \$5,000 in donations went toward beautification projects in our community that would not otherwise have been possible?

Beautification donations, large and small, help with city-wide plantings, purchase of waste receptacles placed along our City streets, street benches, decorative lighting and Holiday decorations, bike racks, and even help to fund public art projects in our community. Thanks to Beautification funding three years ago, we were able to purchase our Town Center Clock which stands in front of Homestead Park.

Your donation will make a difference in our community and with Spring on the way, now is a great time to make your dollars count! If you would like to become a Patron of Beautification in University Place, it's easy -- Just fill out the form below and return the form in the self-addressed envelope provided.... And thank you for caring enough to make University Place "THE PLACE" to live in the South Sound!

YES!... I want to be a Patron of Beautification in University Place!
